

Client Website Build Checklist

Give us the right ingredients. We will cook the whole thing in a day.

Required before the 24-hour build window starts

Required

BUILD READY

- Business name
- Current website, if any
- Domain registrar or DNS access
- Logo files
- Brand colors or style preferences
- Contact information
- Business description
- Services or products
- Service areas
- Primary call to action
- Photos or approved image sources
- Social media links
- Form requirements
- Booking/calendar links
- Email routing preferences
- Testimonials or reviews
- Competitor examples
- Websites you like
- Required legal disclaimers
- Payment confirmation

Tip: send actual files whenever possible. Screenshots are helpful for direction, but logos, copy, credentials, and approved images keep the build moving fast.

Site in a DayTM
POWERED BY DMI

Optional, But Helpful

These assets are not blockers, but they make the finished site sharper, more credible, and easier to launch with confidence.

Optional

NICE TO HAVE

- Brand guide
- Headshots
- Team bios
- Case studies
- FAQs
- Google Business Profile link
- CRM form embed code
- Lead magnet
- Video links
- Before/after photos
- Certifications
- Awards
- Partner logos

The more approved material you provide up front, the less we have to guess - and the better the final site reflects your brand.

What happens next

1. DMI reviews your intake and assets.
2. We confirm payment, access, and required launch details.
3. Your 24-hour build window starts.
4. We deliver a launch-ready site.
